CORRIGENDUM . . .

Revision of the Name

***Eimeria palustris* Hertel and Duszynski, 1987,
from Shrews (*Sorex* spp.)**

In the paper on shrew coccidians that appeared in the February 1987 issue of the Journal (Hertel and Duszynski, 1987, *Journal of Parasitology* 73: 172–183) we named one of our new species *Eimeria palustris*. Dr. N. D. Levine (University of Illinois) kindly informed us that the name *E. palustris* is preoccupied by an eimerian described from the rice rat, *Oryzomys palustris* (Barnard, Ernst, and Stevens, 1971, *Journal of Parasitology* 57: 1293–1296). We would like to rename

the form we saw *Eimeria longirostris* for the specific name of the host in which the species was most prevalent.

L. A. Hertel and D. W. Duszynski, Department of Biology, The University of New Mexico, Albuquerque, New Mexico 87131.
